

African Animals at Wellington Zoo

Where do they come from?

Think about the part of Africa the animals you see might come from.
Use the pictures below to help you.

<p>Name of animal _____</p> <p>Name of animal _____</p>	<p>The African Savannah</p>  <p>The Savannah has a lot of dry, brown grass. There are often trees scattered about, which are good for sleeping under, and getting food from</p>
--	---

<p>The Forest</p>  <p>In African forests you will find many beautiful green trees. These are very good for climbing!</p>	<p>Name of animal _____</p> <p>Name of animal _____</p>
--	--

<p>Name of animal _____</p> <p>Name of animal _____</p>	<p>Desert</p>  <p>The desert has a lot of sand, is very, very hot, and has very little water. You need thick skin to live here!</p>
